

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (currently amended) A touch screen for use with an organic light emitting diode (OLED) display, comprising:

a) a substrate having a top side and a bottom , the OLED display being located on the bottom side of the substrate;

b) a plurality of touch screen elements located on the top side of substrate; and

c) a polarizing element for reducing glare and improving contrast of the OLED display, wherein the polarizing element is an integral part of the substrate;

wherein the OLED display is a bottom emitting display having a substrate on which are deposited organic light emitting elements that emit light through the substrate of the display and the substrate of the display also serves as the substrate of the touch screen.

2-6 (cancelled)

7. (original) The touch screen claimed in claim 1, wherein the touch screen is a resistive wire touch screen.

8. (original) The touch screen claimed in claim 7, wherein the resistive wire touch screen is a five-wire touch screen.

9. (original) The touch screen claimed in claim 7, wherein the resistive wire touch screen is a four-wire touch screen.

10. (original) The touch screen claimed in claim 1, wherein the touch screen is a surface acoustic wave touch screen.

11. (original) The touch screen claimed in claim 1, wherein the touch screen is a capacitive touch screen.

12-14 (cancelled)

15. (original) The touch screen claimed in claim 1, wherein the polarizing element is a circular polarizer.
